

DECREASE IN MEDICAL FITNESS

The CAA requires licence holders to seek advice from their AME in the following situations. Please give me a call on 07515 409885 or email info@examinair-norwich.co.uk

Licence holders shall not exercise the privileges of their licence and related ratings or certificates at any time when they:

- 1. are aware of any decrease in their medical fitness that might render them unable to safely exercise those privileges;**
- 2. take or use prescribed or non-prescribed medication that is likely to interfere with the safe exercise of the privileges of the applicable licence; or**
- 3. receive any medical, surgical or other treatment that is likely to interfere with flight safety**

In addition, licence holders shall, without undue delay, seek aeromedical advice when they:

- 1. have undergone a surgical operation or invasive procedure;**
- 2. have commenced the regular use of any medication;**
- 3. have suffered any significant personal injury involving incapacity to function as a member of the flight crew;**
- 4. have been suffering from any significant illness involving incapacity to function as a member of the flight crew**
- 5. are pregnant;**
- 6. have been admitted to hospital or medical clinic; or**
- 7. first require correcting lenses.**

I am available for aviation medical consultations between examinations and have over the years developed a network of Private Consultants to whom I can refer to promptly seek specialist assessment/treatment in order to return to 'Fit' status as soon as possible.
